

## Education

**Nuclear Reactor Operator**, Naval Nuclear Propulsion, Obninsk State Technical University for Nuclear Power Engineering, Obninsk, Russia, 1995.

**Engineer-Physicist (MSc equivalent)** Nuclear Physics and Engineering, Obninsk State Technical University for Nuclear Power Engineering, Obninsk, Russia, 1997.

**PhD** Mechanical Engineering, University of Nevada Las Vegas, USA, 2008.

## Short Bio

Dr. Evgeny Stankovskiy has been in nuclear education and training since 1994. His doctoral research was on reactor physics studies of reactor-accelerator coupling experiments under the U.S. Advanced Fuel Cycle Initiative. Prior to his graduate studies in the U.S., Dr. Evgeny spent 10 years at the Obninsk State Technical University for Nuclear Power Engineering in Russia where, in addition to teaching, he conducted research in computational and experimental calculations for medical dosimetry and therapy applications. Dr. Evgeny was one of the inaugural faculty members at Abu Dhabi Polytechnic who taught the first intake of ADPoly students in fall 2011.
